

AutoCAD and AutoCAD LT Beyond the Basics – 16.0 Hours (2 Days)

Course Description

Summary

AutoCAD Beyond the Basics continues with more sophisticated techniques that extend a student's mastery of the program. For example, users go beyond the basic skill of inserting a block to learn how to create blocks and how to populate them on tool palettes. Additionally, users will be introduced to external references which is a feature not covered in the previous session.

Topics and Schedule

Working Effectively with AutoCAD®

- Select Similar
- Hide/Isolate Objects
- Transparency
- Copy and Paste Between Drawings
- Additional Layer Tools
- Selection Cycling
